## SIEMENS

## Data sheet

## 6GK5615-0AA00-2AA2

product type designation

## S615

SCALANCE S615 LAN router; for protection of devices/networks in automation technology and for protection of industrial communication by means of VPN and firewall; Further functions: address conversion (NAT/NAPT), connection to SINEMA RC, 5-port switch, 1x dig. input, 1x digital output.

transfer rate	
transfer rate	10 Mbit/s, 100 Mbit/s
interfaces	
number of electrical/optical connections / for network components or terminal equipment / maximum	5
number of electrical connections	
<ul> <li>for power supply</li> </ul>	1
<ul> <li>for redundant voltage supply</li> </ul>	1
type of electrical connection	
for power supply	5-pole terminal block
design of the removable storage / C-PLUG	Yes
signal inputs/outputs	
number of electrical connections	
<ul> <li>for digital input signals</li> </ul>	1
<ul> <li>for digital output signals</li> </ul>	1
type of electrical connection	
<ul> <li>for digital input signals</li> </ul>	2-pole terminal block
<ul> <li>for digital output signals</li> </ul>	2-pole terminal block
supply voltage, current consumption, power loss	
type of voltage / 1 / of the supply voltage	DC
supply voltage / 1 / rated value	24 V
power loss [W] / 1 / rated value	4 W
supply voltage / 1 / rated value	10.8 28.8 V
consumed current	
• at DC / at 24 V / typical	0.2 A
product component / 1 / fusing at power supply input	Yes
fuse protection type / 1 / at input for supply voltage	Non-replaceable melting fuse (F 2 A5 / 32 V)
ambient conditions	
ambient temperature	
during operation	-40 +70 °C
during storage	-40 +80 °C
during transport	-40 +80 °C
relative humidity / at 25 $^\circ\text{C}$ / without condensation / during operation / maximum	95 %
protection class IP	IP20
design, dimensions and weights	
design	compact
width	35 mm
height	147 mm

depth	127 mm			
net weight	0.4 kg			
fastening method	0.+ Kg			
35 mm top hat DIN rail mounting	Yes			
S7-300 rail mounting	Yes			
S7-1500 rail mounting	Yes			
product functions / management, configuration, engineering				
product function				
• CLI	Yes			
<ul> <li>web-based management</li> </ul>	Yes			
MIB support	Yes			
protocol / is supported				
• HTTP	Yes			
• SNMP v1	Yes			
• SNMP v2	Yes			
● SNMP v3	Yes			
type of configuration	Web Based Management, CLI, SNMP, SCT (Configuration support for certificate generation)			
product functions / diagnostics				
product function				
• SysLog	Yes			
<ul> <li>packet filter log</li> </ul>	Yes			
audit log	Yes			
system log	Yes			
product functions / DHCP				
product function				
DHCP client	Yes			
DHCP server - internal network	Yes			
product functions / routing				
product function / static ID routing	Yes			
product function / static IP routing				
product functions / security				
product functions / security firewall version	stateful inspection			
product functions / security firewall version product function / with VPN connection	stateful inspection IPsec, OpenVPN (as client for SINEMA RC)			
product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection	stateful inspection IPsec, OpenVPN (as client for SINEMA RC) AES-256, AES-192, AES-128, 3DES-168, DES-56			
product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection	stateful inspection IPsec, OpenVPN (as client for SINEMA RC) AES-256, AES-192, AES-128, 3DES-168, DES-56 Preshared key (PSK), X.509v3 certificates			
product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection	stateful inspection IPsec, OpenVPN (as client for SINEMA RC) AES-256, AES-192, AES-128, 3DES-168, DES-56 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-256, SHA-384, SHA-512			
product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection	stateful inspection IPsec, OpenVPN (as client for SINEMA RC) AES-256, AES-192, AES-128, 3DES-168, DES-56 Preshared key (PSK), X.509v3 certificates			
product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function	stateful inspection IPsec, OpenVPN (as client for SINEMA RC) AES-256, AES-192, AES-128, 3DES-168, DES-56 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-256, SHA-384, SHA-512 20			
product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection	stateful inspection IPsec, OpenVPN (as client for SINEMA RC) AES-256, AES-192, AES-128, 3DES-168, DES-56 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-256, SHA-384, SHA-512 20 Yes			
product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection         • bandwidth limitation	stateful inspection         IPsec, OpenVPN (as client for SINEMA RC)         AES-256, AES-192, AES-128, 3DES-168, DES-56         Preshared key (PSK), X.509v3 certificates         MD5, SHA-1, SHA-256, SHA-384, SHA-512         20         Yes         No			
product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection         • bandwidth limitation         • NAT/NAPT	stateful inspection IPsec, OpenVPN (as client for SINEMA RC) AES-256, AES-192, AES-128, 3DES-168, DES-56 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-256, SHA-384, SHA-512 20 Yes			
product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection • bandwidth limitation • NAT/NAPT product functions / time	stateful inspection         IPsec, OpenVPN (as client for SINEMA RC)         AES-256, AES-192, AES-128, 3DES-168, DES-56         Preshared key (PSK), X.509v3 certificates         MD5, SHA-1, SHA-256, SHA-384, SHA-512         20         Yes         No			
product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection         • bandwidth limitation         • NAT/NAPT	stateful inspection         IPsec, OpenVPN (as client for SINEMA RC)         AES-256, AES-192, AES-128, 3DES-168, DES-56         Preshared key (PSK), X.509v3 certificates         MD5, SHA-1, SHA-256, SHA-384, SHA-512         20         Yes         No			
product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection         • bandwidth limitation         • NAT/NAPT         product functions / time         protocol / is supported	stateful inspection IPsec, OpenVPN (as client for SINEMA RC) AES-256, AES-192, AES-128, 3DES-168, DES-56 Preshared key (PSK), X.509v3 certificates MD5, SHA-1, SHA-256, SHA-384, SHA-512 20 Yes No Yes			
product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection         • bandwidth limitation         • NAT/NAPT         product functions / time         protocol / is supported         • NTP	stateful inspection         IPsec, OpenVPN (as client for SINEMA RC)         AES-256, AES-192, AES-128, 3DES-168, DES-56         Preshared key (PSK), X.509v3 certificates         MD5, SHA-1, SHA-256, SHA-384, SHA-512         20         Yes         No         Yes         Yes			
product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection         • bandwidth limitation         • NAT/NAPT         protocol / is supported         • NTP         product component / hardware real time clock	stateful inspection         IPsec, OpenVPN (as client for SINEMA RC)         AES-256, AES-192, AES-128, 3DES-168, DES-56         Preshared key (PSK), X.509v3 certificates         MD5, SHA-1, SHA-256, SHA-384, SHA-512         20         Yes         No         Yes         Yes         Yes         Yes			
product functions / security         firewall version         product function / with VPN connection         type of encryption algorithms / with VPN connection         type of authentication procedure / with VPN connection         type of hashing algorithms / with VPN connection         number of possible connections / with VPN connection         product function         • password protection         • bandwidth limitation         • NAT/NAPT         product functions / time         protocol / is supported         • NTP         product component / hardware real time clock         product feature / hardware real time clock w. battery backup	stateful inspection         IPsec, OpenVPN (as client for SINEMA RC)         AES-256, AES-192, AES-128, 3DES-168, DES-56         Preshared key (PSK), X.509v3 certificates         MD5, SHA-1, SHA-256, SHA-384, SHA-512         20         Yes         No         Yes         Yes         Yes         Yes			
product functions / security firewall version product function / with VPN connection type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection product function • password protection • bandwidth limitation • NAT/NAPT product functions / time protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup standards, specifications, approvals	stateful inspection         IPsec, OpenVPN (as client for SINEMA RC)         AES-256, AES-192, AES-128, 3DES-168, DES-56         Preshared key (PSK), X.509v3 certificates         MD5, SHA-1, SHA-256, SHA-384, SHA-512         20         Yes         No         Yes         Yes         Yes         Yes

ecurity information security information					
	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under
